DETAILED ACTION

Drawings

1. The drawings were received on February 21, 2002. These drawings are accepted by the Examiner.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christa Hildebrand on July 18, 2006.

The application has been amended as follows:

In claim 1, line 7, "a layer of" has been deleted.

In claim 1, line 7, "the" has been deleted and replaced by --only the--.

In claim 3, line 1, "layer" has been deleted.

In claim 4, line 1, "opaque" has been deleted.

In claim 5, line 1, "opaque" has been deleted.

In claim 9, line 1, "layer of" has been deleted.

In claim 10, line 1 "layer of" has been deleted.

In claim 11, line 1, "a backing sheet in" has been deleted.

Art Unit: 1772

In claim 11, line 2, “tape” has been deleted and replaced by --tape positioned on top of the polymer backing for dispensing punched shaped parts--.

In claim 11, line 3, “includes” has been deleted and replaced by --that includes--.

In claim 11, line 4, “color” has been deleted and replaced by --colorant--.

In claim 11, line 5, “portion and” has been deleted and replaced by --portion, providing an anti-adhesive coating on the top and/or bottom face--.

In claim 11, line 7, “for dispensing the punched shaped parts” and replaced by --and dispensing single-sided or double-sided adhesive punched shaped parts from the polymer backing sheet--.

In claim 16, line 1, “layer” has been deleted.

In claim 17, line 1, “layer” has been deleted.

3. The following is an examiner’s statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited protective material with punched shaped parts. Independent claims 1 and 11 identify the uniquely distinct features of a material that include a polymer backing with top and bottom faces and an interior portion comprising a layer of homogeneous opaque colorant, wherein the top, bottom or both faces are coated with an anti-adhesive coating that is used in combination with single or double sided tape to form punched shaped parts. The closest prior art of record, Greuse et al. (USPN 5,250,336) in view of Higgins (USPN 5,932,352), which either singular or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
